scheduled commercial banks/financial institutions regarding extension of reliefs/concessions under rehabilitation packages evolved for sick public sector undertakings (PSUs) considered as potentially viable. As there are certain features distinguishing a PSU from a joint/private sector non-SSI industrial unit, these guidelines contain additional parameters with regard to promotes' contribution, sale of surplus land and requirement of security. All other operative instructions/guidelines on rehabilitation in respect of non-SSI sick/weak industrial units apply to sick but potentially viable PSUs.

RBI has further reported that industrial units including PSUs may not insist that the guidelines on extension of reliefs and concessions generally and those specialy meant for PSUs be adopted as a matter of right. These, along-with other elements of the rehabilitation package, have to be followed/accepted in consensus among all the banks/financing institutions and other agencies participating in the rehabilitation package. In the case of sick industrial companies including PSUs, such packages would need to be sanctioned by the Board for Industrial and Financial Reconstruction (BIFR). RBI does not directly provide any financial assistance to sick industrial companies.
